Tables, Punch Cards,
and General Explanations

OFFICE OF THE CHIEF OF BUREAU

1947 CENSUS OF MANUFACTURES REPORTS

INTRODUCTORY NOTE

This pamphlet describes the tables published in the 1947 Census of Manufactures and the punch cards used in making the tabulations. For the industry and State tables, which are for the most part standard for each industry and for each State, the columnar headings are reproduced. For the numerous tables of the summary volume, only the titles and a brief description of the contents are given.

The published tables provide the most generally useful statistics collected in the Census. Many additional tables can, however, be prepared by different machine runs of the punched cards. The charge for special tabulations is the cost to the Bureau of the Census of doing the additional work.
